

Pranita Fulsundar

Software Engineer - Frontend

✉ pfulsundar8@gmail.com 📞 +91 8999312337 📍 Pune, India 🌐 GitHub 🌐 LinkedIn 🌐 Hashnode

Summary

Frontend Engineer with 3+ years shipping scalable, user-facing products in React.js and TypeScript, including active open-source contributions. Experienced across component design, E2E testing, and cross-platform mobile development. Thrive in collaborative, fast-moving teams where frontend is taken seriously.

Skills

Frontend — React.js · TypeScript · JavaScript (ES6+) · Next.js · React Native · Redux · HTML5 · CSS3 · TailwindCSS · Material UI

Backend/DB — Node.js · Express · MongoDB · PostgreSQL · MySQL · REST APIs

Testing — Jest · Playwright (E2E) · Postman

Tools — Git · GitHub · GitLab · Vercel · Webpack · Chrome DevTools · Figma · Cursor · Claude Code · GitHub Copilot

Work Experience

Deux Solutions Pvt. Ltd.

Jul 2024 – Present
Remote, Full Time

Frontend Engineer

- Contribute production-ready features and bug fixes to OpenMetadata, an **open-source** data governance platform with 4,500+ GitHub stars and an active community of 380+ contributors, serving enterprise data teams globally.
- Architected and shipped a reusable UI component library in React.js + TypeScript that standardised design patterns across **15+ product modules**, reducing per-feature development time by ~20%.
- Built and maintained a **Playwright-based E2E** test suite covering critical user flows; improved test coverage from baseline, directly cutting UI-related production regressions by ~30%.
- Improved **frontend performance** by implementing code splitting, lazy loading, and optimised re-render strategies — reducing initial bundle size and improving Lighthouse scores across key product pages.
- Developed cross-platform features for the 12th Men sports management app in React Native, shipped to both **Android and iOS** with zero platform-specific regressions.
- Partnered with design, product, and backend teams in an **agile workflow** to translate requirements into scalable frontend solutions; consistently delivered against **sprint commitments**.

ByteAlly Softwares

Oct 2023 – Jun 2024
On-Site, Full Time

Frontend Developer

- Led frontend development on a **B2B retail distribution platform** serving 20+ client organisations, using React.js, Next.js, TypeScript, and TailwindCSS.
- Rebuilt the product listing and order management modules with server-side rendering (Next.js), **reducing initial load time** and improving SEO discoverability for client storefronts.
- Established **component-level unit testing** with Jest, reducing the reliance on manual testing efforts and empowering faster development cycles with fewer post-release bugs.

Projects

Plantique Store [↗](#)

An E-Commerce App

GitHub Repo [↗](#)

- React.js · Node.js · Express · MongoDB · Razorpay · Vanilla CSS
- End-to-end product flow: browsing, filtering, cart, wishlist, address management, and Razorpay payment integration — deployed on Netlify + Render.

Organizely [↗](#)

A Kanban App

GitHub Repo [↗](#)

- React.js · Node.js · Express · MongoDB · TailwindCSS · Chart.js
- Drag-and-drop task management with category-wise Chart.js analytics and multi-filter views.

Education

Bachelor of Computer Science

2018 – 2021

Savitribai Phule Pune University

Pune, India

- **First Class with Distinction**
- NSS volunteer — community leadership and teamwork.

Leadership & Community

Ashwas Environmental NGO [↗](#)

Mar 2021 – present

Co-Founder & Tech Lead

Pune, India

- Co-founded an environmental NGO; planned and executed large-scale clean-up drives, seed-ball distributions, and sustainability awareness campaigns across Pune.
- Led the graphics and design team; owned all visual content for social media and outreach, growing community engagement.
- Managed all technology initiatives — digital presence, internal tools, and process automation — enabling the team to scale operations without adding headcount.
